

Village of Lincolnwood Request for Lead Service Line Replacement Program

The Village has a lead service line replacement program to help property owners replace their lead water service line at their convenience. Covered projects for the program include partial lead service line replacements (from the water meter or buffalo box to the connection inside the building) and full lead service line replacements (from the water main to the connection inside the building). The program provides property owners with a cost-match of 50% of the total project up to a maximum of \$5,000. The costs associated with interior restoration will not be covered in this program. Program funds are limited, and the Village will fulfill requests on a first-come first-served basis.

A Village employee must confirm that the water service line is lead before applying for a permit. A Village permit must be issued for the work, the work must be performed by a licensed contractor within the Village and all required inspections must be performed. The work must conform to all applicable Village codes and regulations. Rebate forms must be submitted within 90 days of the work being completed. Work performed prior to January 1, 2024 is not eligible for this program.

Name: _____

Address: _____

Phone Number: _____

Permit Number: _____

Please attach copies of the following:

- Copy of the contractor's contract (indicating work to be performed and cost to perform work)
- Village permit
- Proof of payment to and from the contractor (copy of cancelled check OR credit card receipts and stamped invoice marked PAID)

I hereby attest that the attached documents are true copies of the original documents of the projects incurred costs.
